

Annexure 10.3 Guide to prepare testimonials

Learnings from the field should be captured as testimonials from CRPs-EP, BEPC members, and entrepreneurs. It is good if along with the testimonial, a photograph of the concerned person is also taken. Some of the topics to capture testimonials are SVEP as platform for promoting rural entrepreneurship, impact on CBO leaders or the community network, the change in the life of the entrepreneur because of the support received from the project, CRPs-EP experience in piloting some new activity, and the learnings garnered from the same.
